_____PROFESSIONAL SUMMARY_____

I'm Front End Web Developer. I spend my days with my hands end programming **(HTML, CSS , React))** Digital accessibility,user experience and visual design.I'm extremely passionate about web development Courteous and enthusiastic,. I recently began to be fascinated by web programming, e.g. developing apps and building websites.

_____SKILLS_____

- Demonstrable ability to learn and adapt.
- Knowledge of HTML, flexible CSS, JavaScript and React.
- Knowledge of SEO best practices, performance, cross-browser compatibility, accessibility, and web standards.
- Ability to take design comps and develop fully fledged web pages using HTML/CSS.
- Knowledge of responsive design best practices.
- Experience with a version control system (GIT) is a plus.
- Experience working with UI framework such as Bootstrap is a big plus.
- Linux,Windows and Terminal User experience.

_____PROJECTS_____

- **CRUD App** (React Js) - Implemented creation,reading, update and deletion of entries from database. Also added a Form and Input validation using React JS.
- **JavaScript drum** kit Project - Simply press the corresponding keys to play the drums.Demo here.
- **Fun With HTML5 canvas** - Simply press the Mouse key make art.Demo here.
- **Loading Screen** - How does any page refresh.Demo here.
- **Calculator Project** (React JS) - A calculator that provides the essential arithmetic operations, an expression builder, and a complete history of all expressions. It allows one to toggle between a keypad and history as an input mechanism. Find more information See code click here..
- **Text shadow on mouse move** - This is a JavaScript file that makes text 3D, it uses CSS to apply a shadow and transformations. The text follows the mouse i.e. keeps looking at it.Demo here.
