About me

I am a creative collaborator. Leveraging my experience as a front-end developer and focuson elegant design and user experiences, I see the gaps leftopen between disciplines andbring them into focus.I am a problem solver. I thrive on utilizing my peers'and my combined experienceto produce creative, elegantsolutions to difficult problems.

Passionate front-end web developer with experience using JavaScript, HTML5, and CSS to build all aspects the user experience and user interface for client-facing landing pages. Specializes in using React JS to build websites sites.

Skills

- HTML5/ES6
- Node.js
- JavaScript
- Terminal
- React
- CSS3
- git
- Linux
- SASS/SCSS/LESS
- Responsive Design

Experience

Freelance work

Web developer

May 2019 - July 2019

- I make website projects app for people.
- One of my work you can Click here.

Projects

To-do App

How to develop a TO-DO App is something that has been explained in most tutorials you can find for any technology. The reason for this is that it is a great problem for beginners. This problem should be considered as a Hello World in application development. Therefore, my recommendation is that you develop a To-do app as one of your first programs when learning a new technology.

What I learn this

- Creating new tasks.
- Validating fields.
- Filtering tasks (completed, active, all). Make use of filter and reduce functions (or similar in the programming language).
  You like to see code Click here.

CRUD app

Simple CRUD app, great for fundamentals.

What I learn this

- Creating and managing products.
- Interacting with a database — creating, reading, editing, and deleting products..
- Input validation and how to work with forms.
  A simple CRUD app for products built with vuejs and firestore.You like to see code Click here.

Calculator Project

A calculator that provides the essential arithmetic operations, an expression builder, and a complete history of all expressions. It allows one to toggle between a keypad and history as an input mechanism. Find more information See code Click here.

Education

Bachelor of Science : Information Technology,2021

Sikkim Manipal University - Gangtok, SK.

- Majored in Web Programming.
- Coursework in Object Oriented Programming and Web Systems and Technology.
